

Acceptance Testing

UAT Execution & Report Submission

Date	30 September 2026
Team ID	SWTID-2026-2597
Project Name	Streamlining IT Procurement – Automating Standard Laptop Orders with Flow Designer
Maximum Marks	4 Marks

1. Purpose of Document

The purpose of this document is to explain the User Acceptance Testing (UAT) coverage for the ServiceNow project **Streamlining IT Procurement**. The testing validates that the Standard Laptop catalog item is correctly assigned to the required Flow and that a submitted laptop request triggers the expected process and tasks.

2. Defect Analysis

This section records defects identified during UAT. Since actual execution results must be entered from the team's testing, the table below is provided as a project-specific reporting format.

Resolution	Severity 1	Severity 2	Severity 3	Severity 4	Subtotal
By Design	0	0	0	0	0
Duplicate	0	0	0	0	0
External	0	0	0	0	0
Fixed	TBD	TBD	TBD	TBD	TBD
Not Reproduced	0	0	0	0	0
Skipped	TBD	TBD	TBD	TBD	TBD
Won't Fix	TBD	TBD	TBD	TBD	TBD
Totals	TBD	TBD	TBD	TBD	TBD

3. Test Case Analysis

The following UAT test cases cover the main acceptance flow for the Standard Laptop request.

Section	Total Cases	Not Tested	Fail	Pass
Catalog Item / Standard Laptop	2	TBD	TBD	TBD
Flow Assignment	2	TBD	TBD	TBD
Process Automation Removal	1	TBD	TBD	TBD
Laptop Request Submission	2	TBD	TBD	TBD
Generated Tasks / Flow Execution	2	TBD	TBD	TBD
Final Validation & Documentation	1	TBD	TBD	TBD

4. UAT Test Case Details

TC ID	Test Case	Expected Result	Status
UAT-01	Open Standard Laptop catalog item	Correct catalog item is available for configuration/request.	TBD
UAT-02	Verify Flow assignment	"Standard laptop task" Flow is assigned to the catalog item.	TBD

TC ID	Test Case	Expected Result	Status
UAT-03	Verify other automation is removed	Conflicting/old process automation is removed or disabled.	TBD
UAT-04	Submit Standard Laptop request	Request is submitted successfully.	TBD
UAT-05	Verify Flow execution	Assigned Flow starts and executes successfully.	TBD
UAT-06	Verify generated tasks	Expected tasks are created and assigned correctly.	TBD
UAT-07	Validate final request	Request reaches the expected completion state.	TBD
UAT-08	Document UAT evidence	Screenshots/results are recorded for submission.	TBD

Note: "TBD" fields are intentionally left for the actual UAT execution results. They should be updated after the team performs the test cases in the ServiceNow instance.
